

Construction E-Marketing partners with Amazon Web Services (AWS) to develop, implement, and manage all cloud services. Partnering with Construction E-Marketing will assure your business, enterprise, or organization is receiving professional, trained, and accredited services. Construction E-Marketing renders quality and secure use case development, including Web applications, back-up and archiving, IT service support, and Email app. All cloud services are hosted by AWS and are subject to the policies and recommendations of AWS.

Construction E-Marketing delivers cloud services that are consistent with standards in deploying cloud software as a service (SaaS), infrastructure as a service (IaaS), or platform as a service (PaaS). You can learn more about Construction E-Marketing and its partnership with AWS cloud service development, implementation, and management, by contacting Construction E-Marketing today.

Rates vary depending on the services needed and purchased through Construction E-Marketing and Amazon Web Services.
